

NexAce CRM - Employee Onboarding Lifecycle

Interactive Circular Process Flowchart

LIFECYCLE HIGHLIGHTS & SECURITY GOVERNANCE

1. Data Isolation: With Admin HR Isolation enabled, HR personnel are strictly restricted to their own assigned employee cohorts.
2. Onboarder Tracking: The system stamps onboardedBy: { hrId, hrName, date } for complete audit trails visible to Workspace Admins.
3. Verification Gate: HR reviews submitted files and flips the 'Docs: Confirmed' toggle before employee accounts are promoted to Active.
